BETTER TOGETHER

CHILD AND YOUTH PROGRAMS

WELCOME

CYP Professionals,

Welcome to the first joint Navy and Air Force Child and Youth Programs Conference! Professional development training sessions have been created to equip you with the tools and resources needed to meet mission requirements. You will have the opportunity to network with other CYP professionals, share and learn from each other and build lasting partnerships during this unique training event.

This week we invite you to celebrate our successes and join together to partner, learn, renew and remember the reasons we do what we do – our military children and families! We encourage you to take the time to meet new friends, learn new ideas and identify new and existing resources to support each other, our children and our families so we can all be "BETTER TOGETHER".

Sincerely,
Greg Young and Eliza Nesmith

Don Kukla, Missoula Children's Theatre
The Performing Arts are more than just a song and dance – writing, music, movement, painting, designing, and acting all come into play. The act of performing is really telling a story, and everyone has a story to tell. By examining the three elements of performance – the Performer, the Audience, and the work that is the bridge between them – we'll build the skills and techniques to make the performing arts accessible to children and youth (and the whole community!) in an inclusive, fun, and engaging way.
